How do I earn Save to Win raffle entries?

An account holder earns one entry into the monthly, quarterly and/or annual prize drawings (where applicable), for every \$25 increase in the monthly balance of the Qualifying Save To Win Account at month's end. Entries are calculated based on a month-over-month balance increase, as reported by the credit union in the monthly data file each month. This means there must be an increase of at least \$25 in the reported ending balance of the current month when compared to the reported ending balance of the previous month. This month-over-month balance increase is calculated based on the Save to Win member record reported by the credit union each month. If a Qualifying Account is closed and a new Qualifying Account is opened for any reason during the month, the month-end balance reported by the credit union in the previous month's data file will be used as the starting balance for the current month to calculate the month-over-month balance increase, which constitutes entries for the current month. The more you save, the more chances you receive to win! Max 100 entries per month. Max 300 per quarter. Max 1200 annual (where applicable).

Is there an Example of how entries are calculated?

An account holder earns One (1) entry for every \$25 increase in the monthly balance of the Qualifying Save To Win account at month's end (month over month balance increase). Max of 100 entries per month. Max 300 per quarter. Max 1200 per year (where applicable).

Example 1

Starting Balance	Month 1 Ending Balance	Month 2 Ending Balance	Month 3 Ending Balance	Quarterly Drawing
\$0	+\$200	\$200	+\$1500	\$4700
	= 8 Entries	= 60 Entries	= 100 Entries	= 168 Entries

Example 2

Starting Balance	Month 1 Ending Balance	Month 2 Ending Balance	Month 3 Ending Balance	Quarterly Drawing
\$0	+\$200	\$200	+\$1500	-\$700
	= 8 Entries	= 60 Entries	= 0 Entries	= 68 Entries
